INTRODUCTION

The volume herewith presented constitutes R. L. Polk & Co's San Jose and Santa Clara County Directory omitting Palo Alto. The publishers have endeavored to produce a volume combining all that is vital to the civic, social and industrial life and activity of San Jose.

A careful enumeration of the citizens and business interests of the community and a compilation of the result by trained employees assures as correct and reliable a work of its character as is possible to be produced. The publishers have an organization solely devoted to the publication of directories, and their methods and resources are unrivalled. Their imprint on the hundreds of directories published for cities throughout the country attests the quality and reliability of their product. Directories are an essential and indispensable means of reference and an index to what is in a community. They portray it as it actually is and they are the only means whereby its various features can be learned by the general public throughout the country.

The several essential departments of the Directory are set forth in the order following:

THE BUYERS' GUIDE, pages 17 to 64, contains the advertisements of the leading and progressive business men and concerns alphabetically arranged under headings adapted to the class of business conducted. This feature is printed on tinted paper.

THE ALPHABETICAL LIST OF NAMES OF CITIZENS, business firms and corporations is embraced from pages 65 to 499.

THE STREET AND AVENUE GUIDE AND DIRECTORY OF HOUSEHOLDERS extends from pages 501 to 645.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 647 to 743, and shows the various manufacturing, mercantile and professional occupations, compiled under headings appropriate to the class of business pursued. This department will be appreciated as a special trade directory. The directory is the common intermediary between buyer and seller.

SANTA CLARA COUNTY INFORMATION extends from pages 745 to 911.

LIBRARY

For the convenience of the general public, we maintain at the office of the Chamber of Commerce, San Jose, a file of directories of different cities that may there be consulted for general reference.

We advertise San Jose by placing on file in the directory libraries of the principal cities of the United States the latest San Jose Directory, where it may be consulted without charge.

The publishers take this opportunity of thanking the citizens of this community for their unfailing courtesy in furnishing information, and their generous patronage which makes this directory possible.

R. L. POLK & CO. OF CALIFORNIA.

STATISTICAL SUMMARY

Name of City—San Jose.

Slogan or Sub-phrase—None.

Form of Government—City Manager.

Population—77,000.

Area—Within official lines, 12 square miles; city as a whole, 20 square miles.

Altitude—100 feet.

Assessed valuation—On basis of one-third actual values, \$40,844,645.

White population is 76,000.

Colored population is 250 (Negro).

Note—1920 census figures for San Jose: Japanese, 321; Chinese, 341; Negroes, 191. There are fewer Chinese here now than in 1920; the Japanese increase is small, and that is true also of the Negroes. We have made, we think, a liberal estimate of the present number of the above mentioned three classes of San Jose residents, and have deducted them from the total population figures to arrive at the number of whites.

Predominating nationalities in city are American and Italian.

Parks number 11 with 725 acres, valued at \$632,723.88.

City's bonded debt is \$1,193,475.00.

Financial—6 banks, 1 trust company, 2 savings banks.

Post Office receipts of \$367,237.31.

Telephones in service—San Jose, 19,218; Santa Clara, 4,070.

Church buildings—38; 22 miscellaneous religious organizations.

Trade—Territory (Retail) serves 125,000 people within the trading area covering a radius of 25 miles. Jobbing territory serves 125,000 people within a radius of 25 miles.

Hotels—There are 39 hotels, with total of 1280 rooms. Newest hotel was built in 1926.

City served by Southern Pacific and Western Pacific railroads.

Amusements—Largest theatre or auditorium seats 1500 people. There are 6 theatres, with a total seating capacity of 4200 people.

Hospitals number 5 with 250 beds.

Education—Number of schools, 29, including 1 high school, 10 parochial and diocesan schools.

There are 35,000 volumes in the libraries of the city.

City Statistics—Total street mileage, 180; with 122 miles paved, 18 miles under construction or ordered. Miles of gas mains laid, 190; of sewers, 155; electric street railway, 20. Capacity of water works (private), daily average pump of 30,000,000 gallons, with 170 miles of mains and value of plant estimated at \$250,000. Fire department employs 72 men with following equipment: 2 autos, 3 engines, 7 hose and chemical wagons, 1 hook and ladder truck, in 9 station houses. Value of fire department with property is \$283,510.29. Police department has 43 men with 1 station and 3 pieces of motor equipment.

SAN JOSE FACTS AND HISTORY

Supplied by the
SAN JOSE CHAMBER OF COMMERCE

SAN JOSE

The Central City of the Famous Santa Clara Valley

 SAN JOSE, California, the oldest Pueblo in California, founded November 29, 1777, now a modern city of approximately 77,000 population, is the county seat of Santa Clara County. It is located 47 miles southerly from San Francisco and 9 miles from the southern arm of San Francisco Bay, and it occupies the position of central city of the greatest fruit canning and dried fruit packing center in the world. It is one of the four largest cities in the Bay district, and as it lies within the San Francisco metropolitan area, it shares with those cities the opportunities for expansion and development that exist in the Bay region, in addition to its own special local advantages.

San Jose has been built up from the native resources of Santa Clara Valley, practically all of which is comprised within the county lines. There are in the county 1328 square miles, or approximately 850,000 acres, of which 130,000 acres are in orchards, vineyards and berries; in canning and other vegetables, 20,000 acres; in cereals, 50,000 acres; in seed farms, 2000 acres; poultry, beef cattle, thoroughbred cattle, thoroughbred horses, dairy and general farms are numerous; there are many fruit and flower nurseries in the valley, the largest rose nursery on the coast being located near San Jose; for half a century cheese has been an important product of the Gilroy section; and in minerals, vast quantities of quicksilver, manganese and magnesite are exported; a practically inexhaustible deposit of fertilizing material several miles south of San Jose is being worked commercially on a large scale, and the county has an abundant supply of brick clay and of suitable quarries for road construction. The mountain range on the west side of the valley is well timbered with second-growth redwood, oak, madrono and other kinds of trees, and there are many oaks and pines in the Mt. Hamilton range on the east. The valley is 60 miles in length and it has an average width of 20 miles.

Santa Clara Valley has an equable climate, free from extremes of cold or heat: The normal mean annual temperature at San Jose, covering a period of 14 years, as officially reported by E. S. Nichols, local meteorologist. U. S. Weather Bureau, was 57.3 degrees; mean maximum, 68.1; mean minimum, 45.1; precipitation, 16.79 inches; relative humidity, 58; wind (velocity in miles per hour), 5.7; sunshine (per cent of possible duration), 72; clear, 220 days; partly cloudy, 76 days; cloudy with rain (of .01 inch or more), 63 days; maximum temperature, 90 degrees or above, 12 days; minimum temperature, 32 or below, 17 days. The number of days with a maximum temperature above 90 degrees are very few, and there are also a very few with minimum below 32. The equable climate is explained by the modifying influences during the summer months of the valley's eastern range, which protects it from the heat of the interior, and of the Pacific Ocean, which lies only a short distance to the west, the cooling breezes of which, modified by the intervention of the Santa Cruz range, prevail throughout the valley during that season of the year; while the cold of winter is greatly tempered by the San Francisco Bay, which reaches into the northern portion of the

valley, and the Santa Cruz Mountains, standing as a barrier to the ocean fogs and high winds.

Horticulture is the leading industry in the valley, and it is doubtful if there is a section of similar area in all the world that produces so many kinds or so vast a quantity of fruits. The normal prune crop alone ranges from 90,000,000 to 120,000,000 pounds dried, while the 19,000 acres in apricots, the 7000 in pears, 5000 in peaches, 5000 in cherries, and several thousands in plums, apples and other fruits, enormously swell the fruit production; of grapes there are 12,000 acres, and of walnuts nearly 6000 acres. The valley produces about 42 per cent of the State's prune crop and about 50 per cent of the State's dried apricot production.

Of the 40 fruit canneries in Santa Clara County 23 are located in and near San Jose, and of the 30 dried fruit packing houses, one-half are in this city. During the peak of the season from 15,000 to 20,000 men and women are engaged in the canneries and packing houses and in the many drying grounds. The county pack of canned fruits, berries and vegetables averages annually more than 3,000,000 cases of two dozen quart cans per case, or a total of 72,000,000 cans, and at 20 tons per carload approximately 4000 cars are required to load the pack. One can company in this city has a capacity of half a million cans per day, and a large quantity is manufactured by a second local company. Another local fruit product is jams, jellies and fruit juices, which find markets in all parts of the United States. The largest manufacturing in the United States of orchard and fruit handling machinery, irrigation pumps and engines, orchard sprayers and cannery equipment are located in San Jose. In city and county there are 476 factories, large and small, of numerous kinds.

San Jose is served by the Southern Pacific and the Western Pacific railroads; an average of 30 Southern Pacific passenger trains run daily each way between San Jose and San Francisco; auto stages and trucks operate scheduled lines from San Jose to all parts of the State, and Alviso and South Port provide water transportation to Bay points for many products.

San Jose has been growing steadily for several years past, in population and in business. It has overgrown its official municipal lines on all sides; its manufactural and commercial interests are rapidly expanding, and several new residential subdivisions contiguous to the city are being built up with attractive homes. Building permits since 1920, within the official lines only, up to 1928 were \$25,539,245, and for 1928 from January 1 to November 1 they were \$2,196,745. Residence and business construction outside these lines but within the city as a whole have kept pace with inside construction.

Bank clearings in 1920 were \$116,995,085; in 1927 they were \$148,888,528; in 1928, January 1 to November 1, they totaled \$143,053,855. Bank debits increased from \$308,576,254 in 1925 to \$319,530,689 in 1927, and in 1928, up to November 1, they were \$290,146,848, as compared with \$264,868,619 for the corresponding period in 1927.

The facilities for education provided by San Jose and Santa Clara County are prominent factors in inviting students and families here from all parts of the country. In this city are the State Teachers and Junior Colleges, senior high school, and evening high school, two junior high schools, 12 grammar schools, two secretarial schools, and several Catholic schools; at Santa Clara is the University of Santa Clara, and at Palo Alto is Stanford University; there are three military schools in the county, and several private schools; nine high schools, 71 grammar schools, a dozen or more kindergartens and a number of evening schools. Lick Observatory, at the summit of Mt. Hamilton, near San Jose, is a department of the University of California. San Jose has a fine public library; a county library is located in this city, and there is here also one of the best law libraries on the Pacific Coast.

No part of California offers more attractions for the tourist than Santa Clara Valley. The State highway, coast route, from San Francisco to Los Angeles traverses the entire length of the valley, through San Jose; and another paved highway connects San Jose with the route south through the San Joaquin Valley and with the route north and east through Stockton and Sacramento; a branch of the State highway connects Oakland and San Jose, and another, one of the most picturesque drives in the State, places this city within an hour and a half of Santa Cruz, Capitola and other coast resorts. From San Jose paved roads radiate in all directions throughout the valley, foothills, mountains and forests. The State Redwood Park of 10,000 acres lies just over the western summit, in Santa Cruz County; and at the highest point in the Mt. Hamilton range, east of San Jose, is the famous Lick Observatory, reached by a winding road through ever changing scenery. Alum Rock Park, with its many mineral springs, natatorium and plunge, seven miles from the city, in the eastern foothills, is reached both by electric line and a fine paved road. The San Jose Country Club has a club house and attractive golf course in the same foothills, overlooking the valley; the Hill View Golf Club has its plans ready for an attractive club house at its golf course, located a few miles from this city toward Evergreen, and there are several other golf courses in the county. San Jose is provided with four first-class hotels, and several others, small but excellent. The city has eight theatres. All church denominations, benevolent societies, civic, service and women's clubs, are represented here, and the city is pre-eminently one of attractive homes.

Because of its equable climate, scenic attractions, varied fruit productions, and many other desirable features, Santa Clara Valley is known as "The Valley of Heart's Delight." To the home seeker and to the investor it offers pleasant living and satisfactory returns, and to the tourist delightful trips and enjoyable experiences that will linger long in memory.

HEALTH FOODS

EAT HEALTH

Your body is composed of sixteen natural elements. Failure to supply even one of them will slowly undermine your health. You may have these elements in foods with no harsh and forbidding routine. Their most perfect source is the ENTIRE grain of wheat, oats, corn, etc., and they may be so prepared that they are tasty and delicious for every time of eating.

Send stamped self-addressed envelope for FOOD FACTS showing that Right Foods will prevent 85% of human ills and cure many of them.

Subscribe For Your Own Home Morning Paper

IT is full of the best home and telegraphic news. It is free from sensational, objectionable matter. It is clean, wholesome and adapted to every member of the self-respecting family. You get it at the time of day when it is most acceptable — when preparing for the day's duties and the day's purchases. It has Aunt Polly's page for the children; sports for the young people; social doings for the ladies; financial matter for the men and shopping news from all the stores for all.

Your Questions Answered

Many questions pertaining to
the city are answered by the
City Directory.

Who lives where?

Who are the city officials?

Where is a certain street?

Who are the foreign consuls in
the city?

What societies and churches are
represented?

These and a thousand more
questions are answered by
the City Directory. Order one
today.

POLK'S SAN JOSE STREET AND AVENUE GUIDE AND DIRECTORY OF HOUSEHOLDERS 1929

COPYRIGHT, 1929, BY R. L. POLK & CO. OF CALIFORNIA

In the following list the streets and avenues are shown in alphabetical order. The number of each building on the street is given in numerical order and opposite the number is placed name of occupant or householder. Occupants of apartments are shown in alphabetical order under apartment name. In the business blocks containing offices the occupants are shown by room number where practicable.

In all streets both sides of the streets are included in one list.

To find occupation of householder refer to alphabetical list of names.

HOUSE NUMBERS

House numbers are North and South from Santa Clara street—100 to each Block and East and West from First street—50 to each Block.

THINK THIS OVER

THE man who advertises a little
 and then says advertising does not pay
 is like unto the man who burns one match
 beneath a five-barrel kettle of water and
 then says fire will not heat water.

PRODUCTS

The City Directory

places the city on the map and is its only representative to the world beyond its own gates.

It is the city's catalogue of business and represents the city, its citizens and institutions in every corner of these United States.

It is the logical means of publicity in advertising the city, its manufacturing industries, its advantages and resources.

The men who direct the affairs of progressive and up-to-date business institutions, recognize the fact that the City Directory tells the story of the city's life and keeps it before the public as no other publication does or can.

Its Classified Business Section furnishes a list of all trades, professions and pursuits, constituting a special trade directory or buyers' guide and is the best advertising medium on earth.

GILROY

Santa Clara County, California
The Home of the Prune

Population 3600.

Elevation 191 feet.

Twenty miles to the Pacific Ocean, a climate of comfortable temperatures at all seasons.

The sun shines 85 per cent of the day hours in summer and 60 per cent in winter. Gentle and pleasant wind averaging 5.7 miles per hour.

A friendly town of shady streets and quiet, peaceful homes surrounded by thousands of acres of fruit, dairy, poultry, garden and flower seed farms and cattle ranges in the southern end of the famous Santa Clara Valley noted for the high quality of its agricultural products.

When People "Want"!!

THEY LOOK IN THE

CITY DIRECTORY

(CLASSIFIED SECTION)

- ❑ *Is your name under the commodity they seek?*
- ❑ *If not, that opportunity of routing valuable business to you is lost. It's about the same as if you kept one of your entrance doors locked.*
- ❑ *Hadn't you better investigate your omnipresent city directory, and convince yourself of how it can help your business?*

Directory and Reference Media

THE reference medium or directory, whether it is a city directory, state gazetteer or a business directory, ties up closely with other forms of advertising. It is distinguished from the creative style of advertising in that it is passive while the buyer is active. On the other hand, the creative advertising in newspapers, magazines, trade papers, etc., is active while the buyer is passive.

Both are necessary in a well-rounded campaign. The function of creative advertising is to make people want what they did not want before, and to educate them to the point where they are conscious of that want. Reference advertising is an aid at the critical time when the initiative has passed from the seller to the buyer; when the desire to buy is strong, and the question is whether the prospect will buy the advertised article, another brand, or cool off altogether while waiting for the "catalog and name of nearest dealer." If the advertisement which suggested the want can be supplemented by another directing the prospect to the place where he can see the goods, the efficiency of the entire advertising expenditure will be greatly increased.

The directory has a 100 per cent prospect circulation inasmuch as its very nature makes it sell only where it will be used. Its circulation is not so much gauged by the number of copies sold as by the number of people who consult it. There are directory libraries maintained throughout the country for reference purposes, and in them may be found all the most important directories published. Surprise is often expressed by librarians at the number of people who are constantly consulting these sources of information.

There are many kinds of directories and "catalogs," each covering some trade, or locality, or group interest, in which organized information may be found that is useful to the buyer. In every buying center the local directory presents a medium of universal accessibility. For over a hundred years people have been accustomed to refer to it as a logical place to find certain kinds of information. A system of exchange enables each publisher to offer free access to a file of the latest issues of directories from all over the country. This gives every local advertisement a nation-wide accessibility.

The long life of a directory advertisement is a strong point in its favor. It has an existence of 365 days and sometimes twice that, depending on the frequency of issue. It is always kept where it can be found by the buyer when he wants it.

It has a strong appeal for institutional advertising, as reputable publications give prestige to the advertisers who patronize them. It is a significant fact that from 80 to 90 per cent of the advertising in these publications is renewed year after year.

CITY DIRECTORY

ONE OF 200 POLK DIRECTORY LIBRARIES

This Little Library Can Answer 945,000,000 Questions

MANY TRIPS AT YOUR FINGER-TIPS —
SAVE MANY MILES, MINUTES and DOLLARS

There are over 300 of these directory libraries in the United States. They are installed and maintained by the Association of North American Directory Publishers as part of the service given to directory advertisers.

Think what this means to you in effort, time and money saved. You want to know the relationship of the signer of a letter to the firm he represents—the directory library has the answer; someone you vitally need to get in touch with in a distant city has moved; business addresses or firm names have changed—the directory library has the answer. Public officials have been replaced by new elections; location of real estate is desired—again the directory library holds the answer.

Of course you could write or phone for the data you desire, but maybe you don't know just who to approach—the directory library has the answer.

This service is free, for single reference, to the public.

SUNNYVALE

Population 3500 winter, 6000 summer.

The highest spot on the S. F. highway. 39 miles from S. F. or Oakland, 9 miles north of San Jose.

We enjoy here rail and water transportation, having a south port 6 miles from city.

We have two large fruit canneries, Joshua Hendy Iron Works, Hydro Carbon Plant, Advance-Rumely Co., Lucas Mfg Co., Garden City Machine Works, California Concrete Products, three lumber yards, in all of which more than 2000 persons are employed, with an annual payroll of approximately \$1,750,000.

Surrounded by best fruit orchards, seeds farms, dairies and vegetable lands.

Very modern grammar and high schools. Will erect a \$40,000 civic bldg.

SAN JOSE

Advertising San Jose

Do You Know That a Copy of This Directory of **SAN JOSE**

is being placed in the Directory Libraries and among the commercial bodies, business men's clubs, chambers of commerce and the larger business institutions throughout the United States?

No other medium on earth can convey so complete and comprehensive an index of the city, its various industries, its business, educational and religious institutions, its social life and its people.

No other medium can tell so fully of its wonderful growth, its opportunities and its possibilities for the future.

**The Publishers Are Doing Everything Possible To
Make This Directory a Creditable

TRADE! You like
to patronize those concerns
who are in business to stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quick and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?

THE PUBLISHERS

Association of North American Directory Publishers

Members of Directory and Reference Media Department of Associated Advertising Clubs of the World

J. Martin Gardner, Toronto.
A. B. Boyd, Reading.

General Offices: 524-528 Broadway, New York City

The Association of North American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

All members of this association have subscribed to the following

STANDARDS OF PRACTICE

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under such headings as best describe it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what directories and reference media contain; to study public needs and make directories and reference media to supply them; to revise and standardize methods and classifications so that what is wanted may be most easily found, and the directory and reference media be made to serve their fullest use as business and social reference books and directories of buyer to seller and seller to his market.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publication.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers as well as on the number of copies circulated.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of directories and reference media in public service and then to strive in every legitimate way to promote that function.

\$100.00 REWARD will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or "fake" Directory.
